Teams that learn together, thrive together.

- Set up collaborative learning groups (e.g. Book Club, School Culture). Staff can join the groups they're interested via the Learning Hub Groups function.
- Break out into groups and discuss the content you would like to collaborate on.
- Assign the learning to the group.
- Add reflective questions to the discussion board.

Collaboration Groups

12 Months of Learning? Yes please!

- This is one of the easiest ways to engage your school staff!
- A new curated playlist is released at the start of each month, in the Featured Playlist section.
- You will know in advance what is coming, so you can plan your upcoming professional learning.
- Forward the monthly newsletter to staff, and consider starting a group to collaborate and share learnings!

12 Months of Learning

Coffee has a positive impact on learning!

- Ask each staff member to find a short resource (<15 min) and complete it.
- Break out into small discussion groups and reflect on the following questions:
 - What did you learn?
 - What challenged your thinking?
 - What are the tangible actions we can take in the next two weeks? First term? Or by the end of the year?

Latte & Learn

Get your team learning before your next meeting.

- Find a resource that aligns with your school's strategic directions or staff needs.
- Assign the resource to your team prior to your next meeting
- Use the meeting time to unpack the resource together and develop clear actions for how the learning will be implemented in your school.
