CONSULTING

SUPPORT FOR SCHOOLS

WHO WE ARE?

We are a small, solution-focused consultancy company driven to help schools ensure small issues don't become large ones. Backed by over 15 years in the education sector, our consultative approach ensures we are able to create outstanding, contextualised outcomes so that our clients can get on with the business of teaching and learning.

WHAT WE DO?

Founded in 2022 by Peter Cottle, P12 Consulting has already helped a number of schools with projects including digital change management, teacher training, and education workshops. With a clear understanding of the complexity of school operations, P12 Consulting can deliver solutions from large-scale change management projects to small workshops, with the aim to ensure you get the most out of your digital environments.
