

THE AGENDA

CONTEXT

We're thrilled to launch the agenda for our upcoming 2023 Learning and Innovation Series. This series will offer our schools the opportunity to share best practice and build professional relationships.

Series #3 – Human-centered design pedagogies.

This workshop aims to support schools that have embraced design thinking, human-centered design, or problem-based learning as a core methodology in their approach. This workshop is also suitable for schools that are exploring all or elements of the HCD methodology.

- Engage in a hands-on session that navigates you as the designer in the process.
- Explore how this methodology may be implemented more broadly and intentionally in your school.
- Develop sustained opportunities for teachers to build their capabilities back in your setting.

TIMING	PROGRAM OVERVIEW
8:30 - 9:00 am	Registration and networking
9:00 - 9:15 am	Welcome, Acknowledgement of Country and Overview of Workshop
